The image shows a software window titled "Edit process" with a close button (X) in the top right corner. The window has three tabs: "Process", "Image Object Fusion", and "Classification", with the "Classification" tab currently selected. The "Classification" tab contains several sections:

- Candidates:** A checkbox labeled "Use image object domain" is unchecked. To its right is a text input field containing the text "_actv".
- Mode:** A dropdown menu showing "best fitting" with a downward arrow.
- Settings:** A group box containing three unchecked checkboxes: "Use absolute fitting value", "Weight by Size", and "Fusion Super Objects".
- Fitting Function:** A section containing a "Feature" dropdown menu showing "Elliptic Fit".
- Weighted Sum of:** A sub-section with two radio buttons: "Minimize" (unchecked) and "Maximize" (checked). To the right of these are three input fields: "Target Value" (containing "1"), "Seed Value" (containing "0"), and "Candidate Value" (containing "0").
- Fitting Threshold:** A label followed by an input field containing "0.6".

At the bottom of the window are four buttons: "Execute", "Ok", "Cancel", and "Help".
